WHITEHURST'S GALLERY OF PREMIUM DA-Over the store of Duvall & Bro., between 41 and 6th streets, Pennsylvania avenue.

This establishment possesses many advantages over others in this city, being built expressly for Daguerrean purposes. It contains one of the finest skylights in this country, and best arranged; for which reason artists prefer Daguerreotypes taken at this establishment above all others.

There are now on exhibition some of the largest Daguerreotypes in the world, taken at this establishment, with a large collection of others, free to the public at all hours of the day.

CALIFORNIA ILLUSTRATED, including a description of
the Panama and Nicaragua routes, with 48 superb Tinted
Lithographs, 324 pages, 8vo.; price \$2. This work, by J. M.
Letts, has been adjudged by the unanimous voice of the
press to be the most elaborate, practical, and intensely interesting volume that has yet been written upon this golden
theme. Since the publication of Stevens's Journal of
Travels, no work has appeared that has created such a
thrilling sensation. It is pre-eminently practical, and is interspersed with incidents of the most amusing character,
in the language of one of the city editorials, "it is a perterspersed with incidents of the most amusing character. In the language of one of the city editorials, "it is a perfect daguerrectype of California, taken by the light of a noonday sun." Also, Dr. Beach's great work on Medicine, THE AMERICAN PRACTICE AND FAMILY PHYSI-THE AMERICAN PRACTICE AND FAMILY PITYSICIAN, 800 pages, 200 engravings, 8vo., sheep; price §5. Dr.
Beach is at the head of the celestic practice in this country.
Such was the demand, that eighteen thousand copies of this
work were printed in one edition. Also, Dr. C. D. Hammond's work on the same principles of practice, MEDICAL

VARIOUS RELATIONS—containing practical rules for
American females, for their conduct in the detail of every
domestic duty; royal 18mo, red cloth, illustrated; 324
pages; price 65 cents. This work should be in the hands of
every lady, especially the young. Such is its popularity
that nearly three thousand copies have been sold in the region of New York alone within a very few months. Also, a
new and very useful article of Stationery for the preservation of valuable papers, &c., needed for reference, such as
letters, involces, &c. Its form is that of a scrap-block, with

KRAUSER'S PATENT CLOVER-SEED HAR-KRAUSER'S PATENT CLOVER-SEED HAR-VESTER

IS BEFORE THE PUBLIC FOR THE FIRST TIME!

Its utility is beyond comparison with any other farming
implement now in use. It takes the seed from the field,
leaving the straw or grass all standing. It weighs two hundred and fifty pounds, is drawn by one horse, and gatherfrom ten to twelve acres per day. The fingers, or teeth,
catch all the heads, the revolving knives cut them off and
throw them back into the box, which will cross a twentynere field without emptying. The heads are then loaded
into a wagon and taken directly to the mill for cleaning,
thus diminishing the labor three-fourths, and saving all the
seed. This machine comes so low-that every farmer will
have it, and pays the manufacturer 300 per cent.

E. WHEELER, Agent for Washington.

CROSS KEYS, WASHINGTON TOWNSHIP, CAMDEN Co., N. J., } Soptember 4, 1851. September 4, 1851. We, the undersigned, do certify that we have seen Mr Krauser's Patent Clover Harvester in operation, and it has given perfect satisfaction. It has gathered many of the farmers' clover in this neighborhood—it is all that Mr. Krau ent it to be. The farmers have give

Long-A-COMING, October 7, 1851.

This is to certify that Mr. G. J. Naylor has gathered cloves off of a sixteen-acre field of mine, which has been pastured two months with ten head of cattle, and it produced six bushels and a half and one peck of seed. I gave him two thirds for gathering and cleaning. I think his machine interact, and answers all the purpose that is intended.

NEHEMIAH NICHOLSON.

The following points out the profitable nature KRAUSER'S PATENT CLOVER-SEED HARVESTER. We have conversed with a number of Farmers, and they are of opinion that there are at least 3,000 acres in each township in Camden or Gloucester county, New Jersey. Admitting there are but 1,000, it is said that each acre will yield from 1½ to 3 bushels. Reducing it to a certainty of yielding but 1 bushel per acre, what will it cost to gather and thresh 1,000 acres?

This Harvester will gather 12 acres per day. At 8 acres per day, it will take 5 harvesters 25 days, at a cost of..... days, Cost of harvesting, &c., 1,000 acres...

culation.

Perhaps no invention offers greater inducements for a profitable investment than the Harvester. For an enter prising young man, of good business habits, a large sum or money could without doubt be realized from the sale or rights in the different States of the Union not yet disposed of. By calling at this office, it can be done but yet disposed. of. By calling at this office, it can be demonstrated satisfactorily that men of moderate capital could not choose a bette

Mexican Mustang Liniment! THE EVIDENCES ACCUMULATE!

EAD the following proof of what we have long since asserted, viz: that the Mustang Liminent is the sim non of all external remedies ever before offered to the "Wm. M. Johnston, No. 112 Second street, Pittsburg, says

that he had a severe attack of Rheumstism in his right hip after suffering some ten days, the left hip also became at feeted, and he was obliged to 'lay up.' The pain was constant and excruciating. He had heard of the wonderful effects of the Mustang Lioiment in Rheumatism, and determined to try it. One small bottle, thoroughly applied, performed a perfect cure! B. H. Menkings, 180 Walmut street, Cincinnati, was confined to his bed and under treatment of a physician some six weeks with Neuralgia of the whole of his right side, leg, arm, and face. His sufferings were indescribable, and the only cessation from the most agonizing pain was while under the influence of opium or morphine. His doctor finally advised him to try the Mustang Lioiment: he did so, and in two days was able to go about his business, perfectly cured." A. S. De Lany's Mathematical | that he had a severe attack of Rheumatism in his right hip erfectly cured.

"THE LAME MADE TO WALK .- About the first of April 1 "The LAME MADE TO WALE.—About the first of April I cut and laid open the fore finger of my left hand, through the bone and across the second joint, nearly dissevering it from the hand, being about two-thirds off. I was fearful that I should lose the use of my finger forever; but I bound it up with the Mexican Mustang Liniment, and it soon healed up, and is now perfectly well, though somewhat scarrified. I used nothing but the Mustang Liniment.

"About one week ago I had the misfortune to cut the cap of my left knee in two with the share corner of an axe. The scarrified. I used nothing but the Mustang Liniment.

"About one week ago I had the misfortune to cut the cap
of my left knee in two with the sharp corner of an axe. The
cap was split asunder, and for a day or two I could not use
my leg at all, and I was afraid that I would lose its use forever. The cap was cut and cleft to the joint with a deep
and al-ming gash, and it gave me great pain and uncasiness, lest I should be entirely deprived of the use of my leg.
I applied the Mexican Mustang Liniment, and that alone,
in both of the above cases, and I am now quite well, exceptthe cap of my knee is a little swellen, and is tender about
the cut, which is healed up and shows a fresh red appearance of about one inch and a half in length and a quarter of
an inch in width, but gives me no inconvenience whatever.

"I walked fifteen miles yesterday out of the thirty miles
from the place where I live near the Sulphur Springs, in
Jefferson county, and feel able to walk as many more today. My recovery has been so wonderful that I feel it my
duty to make it public, that the world may know the value
of the Mexican Mustang Liniment.
